## Product 1: Peak Flow Meter

A medical device that evaluates, monitors, and reminds asthmatic and COPD sufferers how well their lungs worked.

- Assist in early detection of acute asthma attacks.
- Two parameters of PEF and FEV1 display on LCD screen only after a blow
- Professional IT team support.
- BLE protocol and SDK provided for the connectivity.
- Pressure differential sensor applied ensures the high accuracy.
- ATS ERS WRIGHT standards provided.
- Easy to clean and disinfect.
- Durable, compact and portable.
- High repeatability, no calibration is needed after manufactured.

### APPLICABLE FOR:

People looking out for their respiratory health, asthma sufferers, persons with respiratory problems and COPD, smokers, sportspersons, athletes, adults and kids above 4.

Package: 38 X 35 X 36 cm, 50 units, 6.4 kg  
1 unit: 6.34 x 2.64 x 2.24 inches; 1.83 Ounces

## Upcoming New Peak Flow Meter with data tracing (NEW)

### Digital Reading = Accuracy

- Monitor your lung performance at home
- Generate your own peak flow diary

You can check the previous data by pressing the left and right bottom.

- Detachable mouthpiece
- 1 extra Mouthpiece packed
- Higher accuracy level on the differential pressure sensors
- With recorded time and PEF & FEV1 data,
- Storage: 300 history records
- Power charging. Durable
- Bigger screen with Organic Light-Emitting Diode
- Disattachable mouthpiece / blowtube
- With "Sonmol PEF" cellphone application (easy way to record your data and form asthma diary)

## Product 2: Respiratory Muscle Trainer

Stand or sit upright and hold the Respiratory Muscle Trainer.

Seal your lips firmly around the mouthpiece.

Adopt diaphragmatic breathing. Use only your mouth for breathing in and out.

Starting from level 1 of the trainer is recommended.

Increase the resistance level when you're able to do more.

Breathe in and breathe out thoroughly as slow as possible.

Practice 5–10 minutes each time, 2–3 times a day to enjoy a better vital capacity in 3 weeks of continuous use.

People who have respiratory problems & healthy people all benefit from the respiratory muscle training.

- Training the inspiratory and expiratory muscles to increase the lungs capacity and ventilation ability.
- Efficiently get 30% training performance improved comparing any devices only with single function breathing exerciser.
- Decrease the acute attack of COPD and Asthma by respiratory training with this device.
- Improve oxygen uptake to vital organs and increase MIP and MEP.
- Strengthen peak cough ability to remove mucus easier.
- Strengthen swallow and speech abilities.
- Help enlarge the endurance for athletes or singers to improve their performance.
- Train to help with the ventilation disorder of the sleep apnoea patients.
- Several inhalation and exhalation level settings for people with different demands.
- Low daily cost, portable, lightweight and easy to clean.
- Whole body the medical grade material.
- FDA, CE approved.

### APPLICABLE FOR:

- People who are looking for their health and those who need lung capacity training, designed for adults, elderly, children, smokers, swimmers, athletes, singers and more.
- People who suffer respiratory diseases such as asthma, bronchitis, emphysema, and COPD, post-Covid19, post chest or lung surgery, lung function decline.
- Those need lung function recovery to reduce postoperative pulmonary complications.

Package: 60 X 50 X 40 cm, 160 units, 17 kg

## Product 3: Respiratory Muscle Trainer Manometer Version

A manometer is combined with this RMT device, which aims to help you set the training goals and compare the training performance of different periods. It acts to be the best guide to know your Maximum Expiratory Pressure (MEP).

- Improve cough strength
- Supahyoid complex activation
- Vocal cord closure
- Exchange and normal body processes like speaking, coughing, and swallowing.
- Train the upper airway muscles necessary for speech, airway clearance, and expectoration.
- Train trunk muscles for the body's flexibility and rotation
- Prevents aspiration pneumonia (AP) for better health, clear communication, and improved quality of life (QoL)
- Reach full potential during competition and stage performances with the help.
- Pulmonary rehabilitation
- FDA, CE approved
- Free nose clip and travel bag packed

### **APPLICABLE FOR:**

- People who are looking for their health and those who need lung capacity training, designed for adults, elderly, children, smokers, swimmers, athletes, singers and more.
- People who suffer respiratory diseases such as asthma, bronchitis, emphysema, and COPD, post-Covid19, post chest or lung surgery, lung function decline
- Those need lung function recovery to reduce postoperative pulmonary complications.

## Product 4: Mucus Removal Device (NEW)

Strengthen breathing and relieve the symptoms of lung diseases, asthma, bronchitis, emphysema, and other respiratory discomforts caused by the environmental pollution.

- Unique original design – the vibration frequency of the little bear on the cap tells the expiratory force of your training. Have fun!
- Reduce the dependence on nicotine to help quit smoking

- OPEP technology, a globally trusted physiotherapy
- Improve pulmonary function, lung oxygenation, clear mucus from bronchi.
- Combination of respiratory training and mucus removing all in one step.
- Keep the airways open.
- Lightweight, portable, a carry string for taking it to anywhere and use anytime.
- Making feasible better compliance of patients in treatment
- Easy to clean
- Three qualified Stainless Steel Balls for personal training needs
- Medical device standard, FDA approved
- Drug free and suitable for a wide range of people.

### APPLICABLE FOR:

- Peoples suffering from respiratory issues (Obstructive sleep apnea, Dysphagia, Asthma, cystic fibrosis, COPD, Muscular dystrophy, and Respiratory muscle weakness).
- Children, Adults, Elderly, Singers, Athletes, Smokers, deep sea divers, Wind Instrument Musicians and more.
- People who need to improve speech and swallow performance.

Package: 60 X 50 X 40 cm, 160 units, 17 kg

Better Breathing Changes Your Life

# NASAL CARE PRODUCT LIST

Better Breathing Changes Your Life

BETTER BREATHING CHANGES YOUR LIFE

## NASAL CARE PRODUCT LIST

Product 1: Electrical Nasal Irrigation	Page 2
Product 2: Electronic Nasal Spray Irrigator I	Page 3
Product 3: Electronic Nasal Spray Irrigator II	Page 4
Product 4: Baby Nasal Aspirator	Page 5
Product 5: Warm Mist Steam Nasal Inhaler	Page 6

Sales Manager: Swan Lyu

Contact email: [wanshu@healthcare-inc.com](mailto:wanshu@healthcare-inc.com)

Sales Contact: Carole Sun

Contact email: [sunxueni@healthcare-inc.com](mailto:sunxueni@healthcare-inc.com)

## Product 1: Electrical Nasal Irrigator

Breathe better, sleep better with Nasal Power Suction Irrigator

Driven by the suction power, the saline solution: is pulled gently and naturally into one nostril, goes around the back of your nose, then out from the other nostril, and finally flows into the waste liquid tank.

- A deep circular cleansing that works on the nasal passages decongests your nose within 10 seconds.
- Remove nasal discharge, dust and allergens, inflammations with the gentle, powerful flow.
- The vacuum pump helps reduce the acute pressure on noses and ears and the risks of getting otitis media by using the regular nasal cleansing devices.
- Drug-free, FDA approved.
- Large capacity tanks, easy and efficient to clean.
- Automatic waste liquid separation design, clean and hygienic.
- Monitoring Sticker available for formulating the saline at the right temperature.
- Two nozzles for circular irrigation, change the direction of the flow by rotating the nozzle unit.
- Salt packets provided.

### **APPLICABLE FOR:**

Children above 12 years old use the devices under the physician's guidance. Adults use the devices following the instructions.

## Product 2: Electronic Nasal Spray Irrigator

Different modes to meet various needs:  
For Electronic Nasal Spray Irrigator I: 3 modes (Gentle, Strong, Pulse )

- The fine mists help to improve the allergic symptoms of snotty or blocked nose, the itchy, red, watering eyes.
- Portable, lightweight
- The waste liquid chamber collects the waste water at the same time of irrigating.
- Constant spray provided only after a press. Easy to operate.
- Single dosage saline solution provided.
- The share-able main body for different users with different chambers
- Drug free, CE, FDA approved

### APPLICABLE FOR:

- Babies and children 1 year and above
- Sinus Surgery Post-operative Care
- Pregnant women
- Adults

Package: 55 X 53 X 38cm, 20 kg, 18 units

## Product 3: Electronic Nasal Spray Irrigator II

15–20µm ultra-fine mists this device provides are safe & gentle for noses. Choking-free. No otitis media risks.

For Electronic Nasal Spray Irrigator II: 3 modes (Gentle, Strong, 20Hz Frequency Pulse)

- Magnetic charging & dust-proof cap & long battery life
- The fine mists help to improve the allergic symptoms of snotty or blocked nose, the itchy, red, watering eyes.
- Portable, lightweight
- The waste liquid chamber collects the waste water at the same time of irrigating.
- Constant spray provided only after a press. Easy to operate.
- Single dosage saline solution provided.
- The share-able main body for different users with different chambers
- Drug free, CE, FDA approved

### **APPLICABLE FOR:**

- Babies and children 1 year and above
- Sinus Surgery Post-operative Care
- Pregnant women
- Adults

## Product 4: Baby Nasal Aspirator

The high-pressure prevention design.  
Safe and friendly for babies.

- Comfortable, anti-back flow, and hygienic.
- Full-body disassembled design, easy to clean.
- Producing under the medical device standard.
- Powered suction works on removing mucus and relieving nasal congestion. Stronger but harmless suction power for babies.
- Food-grade silicone nozzle, 2 suction modes, switch freely.
- Low noise design, user-friendly operation.
- Drug-free, FDA approved.

- Booger pickers in, the mother's friend to help remove the boogers in a safe and efficient way

### APPLICABLE FOR:

- Babies and children 1 year and above
- Sinus Surgery Post-operative Care
- Pregnant women
- Adults

Package: 39 X 44 X 49 cm, 30.3 kg, 112 units

## Product 5: Warm Mist Steam Nasal Inhaler (NEW)

Quick relief for your nose from allergies, sinus congestion, coughs, throat congestion, coughs, throat irritation, cold and flue, and discomfort through the use of small hot steam produced by the machine and treatment of essential oils to the sinuses.

Our package contains:

- 1 X Hand-held Steam Inhaler
- 2 X Facial Masks (Different sizes, one for adults and the other for kids)
- 1 Box of 14 X 15ml sterile water refills
- 12 sessions of peppermint & eucalyptus essential oil
- 1 X Charger
- 1 X Instruction Manual
- 2 X Syringe (helps add your own pure sterile water or distilled water)

This is a 2022 newly designed product.

We are applying the FDA certificates.

**Package: 55 X 53 X 38cm, 26 kg, 24 units (unclear yet)**
